1. Neat Video Pro

Neat Video Pro is a powerful noise reduction plugin for Adobe Premiere Pro. It uses a combination of complex mathematical algorithms and wavelet-based techniques to reduce noise from videos while preserving true details and colors.

2. Digital Anarchy Flicker Free

Flicker Free by Digital Anarchy is a powerful and simple **Premiere Pro plugin to remove flicker from videos**. The plugin offers a number of presets that you can select for different types of videos. This makes it super easy to remove flicker caused by LED lights, slow-motion footage, drone footage, out-of-sync cameras, and much more.

3. Scale Up

ScaleUp is a Premiere Pro plugin that is capable of enlarging videos by 10 times. However, it can also be used to reduce noise. It uses AI-powered technology to study and analyze the pixels of videos using a neural network to improve quality and reduce noise.

4. Red Giant Magic Bullet Suite CC

Red Giant’s Magic Bullet Suite is a collection of professional video editing and color-grading tools that are widely used in the film, television, and video production industries. It is designed to enhance the overall look and quality of videos, giving them a cinematic and polished appearance.

5. Hawaiki Keyer

Hawaiki Keyer is a Premiere Pro plugin with two separate keying modules, one for removing green screens and the other for blue screens. It uses an innovative matte extraction algorithm to remove green/blue screens with significantly less effort.

6. iZotope RX Elements

iZotope RX Elements is an entry-level **audio editing plugin for Premiere Pro**. It offers a wide range of tools for audio repair and enhancement. It is a **cost-effective tool** that provides you with a powerful set of features for repairing and enhancing your audio recordings.

7. Mt. Mograph Wander

Mt. Mograph Wander is a powerful media search plugin for Premiere Pro users. It's a search engine that helps you find and collect media easily. With its user-friendly interface, you can quickly browse through vast libraries of Images, Gifs, Emojis, SVGs, and icon packs. It provides fast results sourced from the internet.

8. FxFactory Pro

FxFactory Pro is a powerful tool designed specifically for Adobe Premiere Pro. It offers a vast collection of visual and audio effects plugins that can enhance your video editing experience. With FxFactory Pro, you can customize and enhance your projects with a wide range of professional-grade effects, all within the Premiere Pro environment.

9. Blace – AI Face Detection & Blurring

Blace is an Artificial Intelligence based automatic face detection and blurring plugin for Adobe Premiere Pro. Simply select the faces you want to blur and the plugin will take care of the rest. You can blur the whole face or just the eyes, or completely exclude faces you don't want to blur.

10. 36Pix Cinematte

36Pix Cinematte is a Premiere Pro plugin that helps you remove green screen backgrounds and spill with ease. It is powered by an advanced hair-preserving algorithm that results in a very high-quality key around the hair. You can also generate a clean plate, denoise the footage, and preserve reflections and transparency in glass and similar objects.

11. Yanobox Motype

Yanobox Motype is a typography plugin for Premiere Pro for creating animated text and other motion graphic effects. It has more than 250 presets that you can mix and match to create unlimited variations of motion titles.

12. Re:Vision Effects REZup

With REZup, you can upscale and enhance the quality of your videos directly inside Adobe Premiere Pro. There are two plugins included in this product – REZup Enhance and REZup Resize. Both provide a unique mix of industry-standard video processing powered by machine learning.

13. Digital Anarchy Transcriptive Rough Cutter

Transcriptive Rough Cutter is a Premiere Pro plugin that enables text-based video editing. It features a text panel where you can import a transcription of your video, then simply remove words or sentences and the plugin will automatically cut the video. The plugin is highly useful for editing podcasts and talking head videos as it saves immense time and effort.

14. Autocut – Jump Cuts & Remove Silences

Autocut is a Premiere Pro plugin that automatically cut and removes all of the silences from your videos. This can save you a significant amount of time and effort when compared to manual video editing.

15. Autopod – Automatic Podcast Editing

Just like Autocut, Autopod is also an automatic video editing plugin for Premiere Pro. However, it is primarily aimed at editing video podcasts and multi-camera sequences. You can also use it to automatically create jump cuts and remove silence from your footage.
